INTERNATIONAL SOCIETY *for*
EXTRACELLULAR VESICLES

Advancing extracellular vesicle research globally

Join us at ISEV2024!

On behalf of the International Society for Extracellular Vesicles (ISEV), we invite you to attend the 13th ISEV Annual Meeting to be held May 8-12, 2024, in Melbourne, Australia.

The ISEV Annual Meeting is the only international event focused on EVs that attracts a global audience of EV researchers and covers the breadth of new and innovative research. The theme of ISEV2024 is “Discover, Innovate and Understand”. Coming to Australia for the first time, ISEV2024 will cover all topics encompassing extracellular vesicles, from fundamentals to biological discovery, nanotechnology and platform technologies, as well as advances in clinical and translational research. In addition to attending expert educational and scientific sessions, delegates will explore Melbourne and beyond, including the spectacular arts scene, world-class sporting calendar, unique local wildlife, Indigenous Australian experiences, and renowned culinary delights.

At this showcase international meeting for the field, you have the chance to connect with colleagues from across the world, exchange ideas, and build valuable professional networks that will extend beyond the meeting itself. To complement the scientific program, you will be able to share the latest technologies and services in the exhibition, and other avenues will highlight the exhibition area and encourage delegate flow and attendance in the hall. Progress isn't possible without the participation of key industry partners like you. Your participation encourages growth of the EV field in academia and industry alike and expands EV research and application into other research and commercial sectors.

We look forward to welcoming you to ISEV2024.

Sincerely, on behalf of the International Organizing Committee,
